

TURNAROUND & SPECIAL SITUATIONS

CASH IS TIGHT. PAYROLL IS FRIDAY. WE'VE BEEN HERE.

Embedded within days, not weeks. Calm competence. Zero judgment.

LIMESTONE embeds within days, not weeks, when a business is in distress. Cash visibility, lender communication, payroll continuity, and a stabilization plan tied to operational reality.

THE FIRST 48 HOURS

CASH VISIBILITY IN 48 HOURS

Where the cash is, where it's going, what stops it from running out. 13-week forecast tied to reality.

PAYROLL + VENDOR PRIORITY

Who gets paid, when, and why. Payroll continuity. Critical vendor list. The team doesn't wonder.

STABILIZATION MILESTONES WITH THE TEAM

Daily standup. Weekly review. Lender update cadence. The team has milestones to hit, not vibes to manage.

LENDER TAKES OVER FROM OWNER

We translate between owner and bank. The lender hears a real plan, not denial.

REVENUE RETENTION PLAN

Customers who keep the business alive identified, contacted, prioritized. Pricing actions that create cash.

We don't do drama. We do the work. The bank is calling. The team is anxious. The business is salvageable if the right things happen in the right order in the right amount of time. We've sat in this room before.

BEYOND THE FIRST TWO WEEKS

THE RECOVERY PLAN.

01 13-WEEK CASH, REFRESHED WEEKLY

Tied to operational reality. Variance review with the lender on a predictable cadence.

03 TARGETED COST REDUCTION

Real cash. Not across-the-board cuts that gut the business.

05 QUARTERLY MILESTONES

Recovery plan the lender and team can both track. Bank sees progress, team sees the path.

02 FORBEARANCE NEGOTIATIONS

Vendor and lender forbearance where needed, coordinated with your attorney.

04 PRICING AND RETENTION

Customer retention plan and pricing actions where they create cash without breaking the relationship.

06 MULTI-SITE STABILIZATION

When distress is concentrated in part of the business, we run stabilization on that part while the rest runs.
